

My Funding Help - Client Funding Overview

Copyright 2025 All Rights Reserved

Hey, thanks for taking some time to review our guide.

My Funding Help provides access to (partner) funding offers for personal loans (no business required), business & real estate funding programs, credit repair (including tradelines), client funding & growth consulting.

Got 5 minutes to read through this & take specific action to possibly get funding? Disclaimer: We're NOT direct lenders, cannot guarantee you or your prospects/clients get approval & submitting funding requests authorizes our partners to handle all information, for discussion(s).

For client funding options, here's the overview:

- ❤️ We're open to discussing a potential referral partnership opportunity.
- 😎 If you want to see if your prospects/clients can get funding, cool.
- ❌ This isn't a basic referral program, this is a "concierge" plan.

Think about it like this -

1. You have a legally operating business based in the USA (required).
2. Your prospects/clients sometimes can't afford what you sell.
3. You either get frustrated .. or offer My Funding Help.

The best sales reps in the world can't get blood from a stone, much like prospects/clients with financial issues can't always afford to pay you, regardless of your pricing. While we can't guarantee we'll be able to get approvals for your prospects/clients, what we can offer is an opportunity (to overcome these financial obstacles).

Working on a "case-by-case" basis, we'd love to discuss if working together is possible, what the terms/agreement will look like & related. Just email help@myfundinghelp.com to share your situation & we'll reply ASAP.
